---

**CAMP SCHEDULE:** In order to produce a complete musical in the short time period allotted, it is vital that actors are present for rehearsals. Please list below the sessions of camp in which your child is enrolled, as well as all dates during which they will be absent due to vacation or other family plans and obligations. All children will be cast in the show, but this information is **essential** for planning purposes:

**REMEMBER:**

Having your child participate in theatre has little to do with creating a "star." The objective of rehearsing and presenting a musical is to provide children with opportunities to develop life skills while having fun. All players in the cast are valuable regardless of the size of the role or number of lines they have, and by having your child audition, you agree to accept the part and placement in the show assigned to them by the Theatre Arts Director. Parts will be assigned regardless of the age of the child.
